PROFESSIONAL SUMMARY

Computer Science undergraduate with practical full-stack experience — building React/Next.js front ends, Node.js APIs, and WebSocket-based real-time features, backed by hands-on hardware-software integration work. Writes tested code (Jest, RTL), integrates REST APIs and state management, and practices algorithmic problem-solving through competitive programming.

TECHNICAL SKILLS

Languages: Java, C, JavaScript, TypeScript, Python

Frontend: React.js, React Native, Redux, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, REST APIs, WebSocket

Testing: Jest, React Testing Library (RTL)

Tools & Concepts: Git, GitHub, VS Code, Arduino, Data Structures & Algorithms, OOP, Debugging

EXPERIENCE

Frontend Developer Intern — Prodesk IT

Jul 2025 – Present

- Integrated REST APIs into a React.js web application and implemented centralized state management with Redux across reusable components
- Wrote unit and integration tests with Jest and React Testing Library (RTL) to validate component behavior and API-driven workflows

Frontend Web Development Intern — Cognifyz Technologies

Jul 2025 – Aug 2025

- Built and debugged responsive UI components with HTML5, CSS3, JavaScript, and Bootstrap 5, improving page interaction metrics by ~30%
- Developed 5+ frontend modules for real-world, client-facing applications, collaborating with senior developers on frontend architecture

PROJECTS

NeuroPalm — Real-Time Prosthetic Hand

Arduino · EMG Sensors · Hardware-Software Integration, 2025

- Designed and built a muscle-controlled prosthetic hand, integrating embedded software with EMG sensors and servo motors — Consolation Prize, Gandhigiri Technical Event, Axis Colleges (2025)

India Innovates — CRM Portal

HTML, CSS, JavaScript, Python

- Built a full-stack CRM portal (HTML, CSS, and JavaScript frontend; Python backend; database) for customer and lead management during the India Innovates 2026 national hackathon

HiFi — Real-Time Social Networking App

React Native · Node.js · WebSocket

- Built a cross-platform mobile app with a Node.js backend and WebSocket-based real-time communication, using React Native for a responsive UI

ACHIEVEMENTS & ACTIVITIES

- 2nd Place — Byte the Bug Debugging Competition, IDAA Annual Fest, Axis Colleges (2024)
- Competitive Programming — Code Catalyst & Code2Debug: algorithmic problem-solving and debugging practice
- Team Leader, Tech & Innovation — FusionX Student Team (2025–2026): led a 5+ member student tech team; improved event delivery timelines by 20%
- Flutter Kanpur — Contributor

EDUCATION

B.Tech. — Computer Science Engineering

2024 – 2028 (Expected)

Axis Institute of Technology & Management, Kanpur (A.K.T.U.)
